

Jehbsil® Silicone Strips

SILICONE EXTRUSION MADE FOR GAP SEALING

Product description

Jehbsil® Silicone Strips are silicone extrusion products that can be used for gap sealing applications in building projects. The product is made for high movement gaps and is designed to be used as an invisible seal.

Properties

The product is made from general purpose silicone and can be made in different colours as required.

Safety Notes

We recommend running preliminary tests to ensure the product material and cross-section profile suit the application and meet the desired performance criteria.

Product Cross-Section Dimensions And Tolerances

The list of existing sizes and dimensions is available [at this link](#). If none of the sizes available will suit your requirements, Strips can be made in any combination within the range:

from 0.7mm up to 50.0mm Thick
from 3.0mm up to 200.0mm Wide

The extruded products can be manufactured in a range between 20° to 80° shore A.

Product Data

Characteristics	Description
Material Composition	≈ %100 Silicone (Less than %1 of the material is pigment)
Colour	As Per Requirement
Density	1.1 (± 0.1) <i>gr/cm³</i>
Temperature Range	-20°C to +90°C
Stability	UV and Ozone Resistant
Hardness	As Per Requirement
Tensile Strengths	As Per Requirement
Tear Strengths	As Per Requirement
Elongation at Break	As Per Requirement
Shelf life	20 Years
