

Jehbsil® EXT#1987

SILICONE EXTRUSION MADE FOR POCKET GLAZING

Product description

Jehbsil® EXT#1987 is a silicone extrusion product manufactured for pocket glazing. The product is designed to easily slide onto the frame and provide an aesthetic look where it meets the glass.

Properties

The product is made from general purpose silicone and can be made in different colours as required.

Safety Notes

We recommend running preliminary tests to ensure the product material and cross-section profile suit the application and meet the desired performance criteria.

Product Data

Characteristics	Description
Material Composition	≈ %100 Silicone (Less than %1 of the material is pigment)
Colour	As Per Required
Density	1.18(±0.1) <i>gr/cm³</i>
Temperature Range	-60°C to +230°C
Stability	UV and Ozone Resistant
Hardness	70 Duro
Tensile Strengths	11MPa
Tear Strengths	26N/mm
Elongation at Break	520%
Shelf life	20 Years

Product Cross-Section Dimensions And Tolerances

A general tolerance of ±0.2mm is applied for all dimensions for the below profile:
